

Padmashree

Manufacturing and Operations Finance Analyst · Chartered Accountant (ICAI)

Bay Area, open to relocation across the US | [linkedin.com/in/padmashree-524a21190](https://www.linkedin.com/in/padmashree-524a21190)

Manufacturing and operations finance analyst and Chartered Accountant, finishing an MS in Finance (STEM). I build the cost models, reconciliations, and metrics that produce the numbers during operating pressure, find the real problem in messy data, and explain the answer in plain language.

EXPERIENCE

Production Finance (Finance Intern), Harbinger Motors

2025-Present

- Built the hours-per-unit metric for a US EV production ramp and showed the swing was the denominator, tightening a quoted range from about 13x to about 2x once read on a minimum volume.
- Fixed the payroll source data behind it: about 1, 043 duplicated employee-days down to 0, with a written tie-break rule and about 1, 957 conflicts logged to an exceptions tab.
- Built the \$11.1M FY26 facilities plan for Department 120 across 258 lines, tagged by method and commitment, showing only about \$0.9M was discretionary.
- Automated the month-end NetSuite GL report to load itself, cutting a close step from about 2 hours to 30 minutes, live for 7 months.
- Built a manufacturing overhead absorption model under ASC 330 with a GL tie-out and idle-capacity bridge; reconciled ASC 842 operating lease schedules.
- Redesigned CapEx reconciliation with a shared identifier and two-level coding, mapping about 2, 400 historical PO lines to the capital budget and writing the SOP.

Senior FP&A Specialist, NTT DATA

2022-2024

- Self-initiated Excel and Power BI automation of close validation and reconciliation, adopted as the team standard, cutting discrepancies by about 30%.
- Built a driver-based multi-year cost allocation forecasting model from a blank page, used across historical, budget, and forecast views in annual planning.
- Ran full-cycle FP&A and month-end close and management reporting, cutting a close cycle by about 25% through automation.

Articled Assistant (Audit and Accounting), Sri Ramulu Naidu and Co.

2019-2022

- Executed statutory and internal audits across client engagements during the Chartered Accountancy articleship.
- Prepared financial statements and supported statutory compliance filings.

EDUCATION AND CREDENTIALS

Chartered Accountant (ICAI)

CPA equivalent Jul 2023

MS in Finance (STEM)

Saint Mary's College of California Aug 2026, expected

B.Com

Mangalore University Feb 2022

SKILLS

Manufacturing and Operations Finance: Hours per unit and unit economics, standard costing and overhead absorption (ASC 330), CapEx planning and reconciliation, purchase order lifecycle tracking, build-cost reporting.
